

Non-Compliance with the Minimum Passing Distance

16%
overall
non-compliance
rate

Observations showed average passing distances were higher than the minimum passing distance specified in the rule.

Highest rates of non-compliance...

between
1-5pm

40 km/h
speed limit
roads

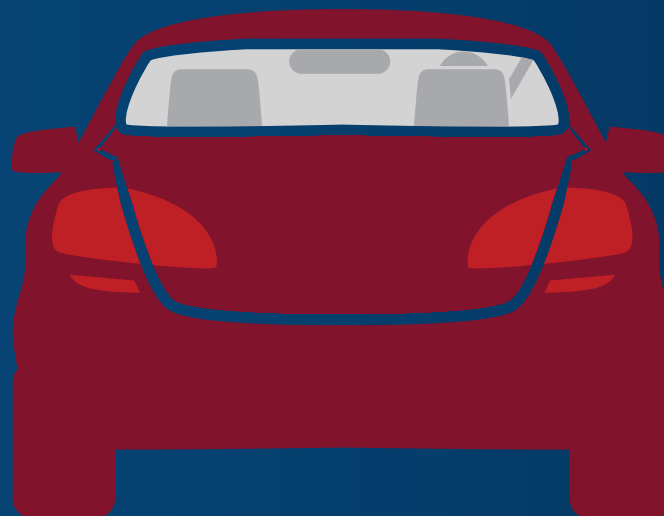

70 km/h +
speed limit
roads

at curved
road
sections

on roads with
narrower
traffic lanes

The findings indicate improvements to road infrastructure would improve cyclist safety and driver compliance.
