Sydney faces worst air pollution levels ever recorded

By Madeleine Genner on The World Today

[Download](#) 1.80 MB:

Air pollution in parts of NSW is at the highest level ever recorded today, with Sydney ranked as the city with the ninth poorest air quality in the world.

Poor air quality is commonplace in a city like Delhi in India, which regularly has the worst air pollution in the world.

Now an oxygen bar has opened in the smoggy Indian city

Duration: 3min 55sec

Broadcast: Fri 22 Nov 2019, 12:24pm

Featured:
