

T³: Today's Teaching Tip

What students say ...

They can do to promote good learning:

- Know that it's OK to humanize yourself.
- Create and foster mutual respect in the classroom.
- Hold all students to the same rigorous expectations.
- Refrain from interrupting students to get a point across.
- Listen to what students have to say.

Lecturers can do to promote good learning:

- Expect to learn every day.
- Come prepared for class.
- Acknowledge when you're falling behind or need help.
- Know what you need, emotionally and physically, to succeed.
- Remember that your instructor is a human too.
