Record your group's investigation question below.

**You can now analyse and represent your data any way you like.
Use the blank A4 paper provided.**

When you are finished, turn over and answer the questions.

When you've finished representing your data, answer the following questions.

1. What steps did you take when you opened your envelope of data?

2. Were all the data the same? Describe any variation you found.

3. How did your representation help you to analyse your data?

4. What conclusion/s have you reached?

5. How certain are you of your conclusion/s? Why?
